## PROFILE

I am an enthusiastic and dedicated undergraduate student pursuing a bachelor's degree in cybersecurity, currently in my second year of study. I possess a strong foundation in programming, networking, and system administration, with hands-on experience in Cisco Packet Tracer design, Linux (Ubuntu), and various programming languages, including Python, JavaScript, and C#.

I am passionate about continuous learning, problem-solving, and applying my technical skills to real-world IT challenges. My goal is to develop expertise in software development and network management while contributing to innovative projects and collaborative environments.
